EDUCATION

Jabalpur Engineering College Jabalpur   **2022 – 2026**
B.tech - Artificial Intelligence And Data Science   *Jabalpur, Madhya Pradesh*

TECHNICAL SKILLS

Languages: C, C++, JavaScript, SQL
Technologies/Frameworks: Tailwind CSS, Bootstrap, ReactJS, Redux, NodeJS, ExpressJS, Git,
Database: MongoDB, Mysql
Developer Tools: VS Code, Git,GitHub, Canva, Figma
Other Skills: RESTful APIs, Version Control, Agile Development

PROJECTS

Books store ⬈ | React.js, Tailwind CSS, JavaScript,EJS, Node.js, Express.js, MongoDb   **December 2024**

- Designed a comprehensive book store platform using **React.js** for an interactive **front-end**, **Node.js** for **server-side** functionality, and **MongoDB** for scalable **data storage**.
- Developed optimized **APIs** with **Express.js**, improving **backend** performance by 25% through **MongoDB query** optimization.
- Configured a **responsive**, mobile-first **UI** with **Tailwind CSS**, increasing user **engagement** and **accessibility** by 40%.

WanderLust ⬈ | Bootstrap,JavaScript,EJS,,Node.js,Express.js,MongoDb   **October 2024**

- Created a fully responsive hotel booking platform with **RESTful APIs**, achieving a 40% improvement in **user accessibility**.
- Developed a scalable user profile management system with secure **MongoDB** authentication and seamless **image uploads**.
- **Boosted** website performance by **reducing** page load times by 25% through advanced **EJS templating**, optimized **database queries**, and asynchronous processing.

LAZAREV ⬈ | HTML,CSS,Tailwind CSS,JavaScript   **June 2024**

- Engineered a visually engaging and interactive **UI/UX** clone of the Lazarev platform using advanced **frontend technologies**, showcasing expertise in modern web development and responsive design.
- Applied **Tailwind CSS** for a modern, **responsive** design that ensures a seamless and intuitive user experience across various devices, enhancing overall **usability** by 35% and **accessibility** by 40%
- Implemented a Lazarev platform UI/UX clone utilizing **HTML, CSS**, and the **JavaScript library GSAP** to craft an **interactive** and **visually captivating** web application.

INTERNSHIP

Code X Intern ⬈   **August 2024 – September 2024**
React.js Frontend Developer   *Jabalpur, Madhya Pradesh.*

* Enhanced website **performance** by 20% through strategic **debugging** and **optimization techniques**, reducing load times and significantly improving **user experience** and site efficiency.
* Engineered interactive **front-end** functionalities utilizing **JavaScript libraries**, resulting in a remarkable 60% boost in user satisfaction .
* Debugged code, Optimised **errors** or **bugs** and Integrated third-party **APIs**, streamlining operations and reducing errors by 30%.

ACHIEVEMENTS

* Completed **100+ problems on LeetCode**,highlighting strong decision-making skills, in-depth knowledge of data structures and algorithms. ⬈
* Achieved a **1450+ rating in LeetCode contests**,by solving challenging problems using logical analysis and a strong understanding of competitive programming. ⬈
* Secured exclusive selection in **DPBH top 30 teams** from our college, standing out as the only second-year team, highlighting our exceptional aptitude and innovation.
